EDUCATION

University of South Carolina

Bachelor of Science in Computer Science

Columbia, SC

May 2028

Relevant Coursework: Software Engineering, Algorithmic Design, UNIX/LINUX

PROJECTS

Hurricane Relief Coordination System | *Project Manager, Developer*

- Lead a 5-person team developing a Java-based hurricane relief system connecting victims, volunteers, and relief coordinators for aid requests and response coordination.
- Design UML use case and class diagrams to model system requirements, user roles, request workflows, and object-oriented relationships.

Personal Portfolio Website | *Developer*

- Designed and developed a responsive portfolio website with a strong focus on polished UI, visual consistency, and intuitive navigation.
- Built and deployed the site using HTML, CSS, Python, Git, and GitHub Pages to showcase projects, skills, and experience.

EXPERIENCE

Stylish Patina

Sales Associate

Falls Church, VA

Sep 2024 – Present

- Manage store opening and closing procedures as a key holder, ensuring smooth daily operations without direct supervision.
- Process transactions and maintain accurate sales data using Shopify and point-of-sale systems, quickly adapting to new software tools.
- Photograph furniture and create appealing product descriptions for e-commerce listings.
- Create photo and video content for social media to promote inventory and attract customers, contributing to the store's digital presence and customer outreach.
- Curated merchandise displays to create an engaging and accessible customer experience.

Nicecream

Team Member

Arlington, VA

May 2022 – Mar 2023

- Assisted with inventory tracking and closing procedures to support store operations.
- Provided efficient service while balancing changing priorities based on customer needs.
- Processed transactions and fulfilled in-store and online orders accurately during high-volume shifts.
